

FFEAC0

231F20

FFF200

63A4D9

They colors used are intentional when implementing the colors. FFEAC0 Should be used as a background it is soft and easy on the eyes this may be replaced with FFFFFFFF. Fonts should be displayed in 231F20 it help to keep the fonts easy to read. This color can be replaced with 000000. FFF200 & 63A4D9 should be used as accents. They were chosen to add fun to the design, These colors are best implemented to highlight, and feature items.

## Georgia Headline

This font should be used as a headline.

This font is chosen because it is easy to read and distinguishes letters with serifs

## Bookman Old Style

This is the font other text will be featured for it is also easy to read and distinguishes letters like l & I though they are similar they are easier to tell apart with this font.

## ICONS
